SUMMARY

Certified Full-Stack Software Engineer with experience in TypeScript, JavaScript, Python, React, Node.js, and database design (SQL). Proven collaborator with a passion for learning to stay current with industry trends. Eager to leverage my technical skills in a junior software engineering role, aiming to deliver impactful results that align with company objectives.

SKILLS

- **Languages:** TypeScript, JavaScript, Python
- **Frameworks:** React, Redux, Node.js, Express, Flask
- **Databases:** PostgreSQL, SQL
- **Tools:** Linux, Jest, Git, Github

EXPERIENCE

Full Stack Software Engineering Trainee, Springboard

March 2023 – April 2024

- Full-stack development training program, developing skills with modern technologies including backend with Node.js, Express, and SQL and frontend with React and Redux through 30+ hands-on projects and collaborative coding exercises.
- 800+ hours of hands-on course material, with 1:1 industry expert mentor oversight.

PROJECTS:

- Developed a full-stack social calendar application integrating the Google Calendar API and Ticketmaster API. Built with *React.js*, *Redux*, *Node.js*, *PostgreSQL*, *JWT*.
<https://github.com/Pike1868/social-calendar-app>
- Developed a React.js Single-Page Application (SPA) simulating a job application portal. Users can browse jobs, apply for positions, and manage profiles. Built with *React.js*, *Node.js*, *PostgreSQL*, *JWT*. <https://github.com/Pike1868/react-jobly>
- Developed a book tracker web application called Next Read, allowing users to search, save, and track books integrated with Google Books API. Built with *Python*, *Flask*, *PostgreSQL*, *Jinja*. https://github.com/Pike1868/next_read_book_tracker_app

IT Specialist/Operations Analyst, Voluntary Benefits at Work

September 2020 – March 2023

- Reduced manual tasks by streamlining enrollment management for 100+ clients.
- Enhanced efficiency by implementing and managing insurance enrollment platforms.
- Provided comprehensive desktop support, including PC repair, setup for new hires, and resolving Windows365 and VOIP phone system issues.
- Improved billing accuracy, recovering \$5k+ in revenue via data & EDI management.
- Saved the company \$1,200 monthly by internalizing and leading social media marketing.
- Developed and implemented a social media strategy, doubling online engagement.
- Contributed to a \$3M revenue project, supporting company growth & acquisition.
